MISSION

“To Integrate With the Indian Educational Service Group by Propagating Value Based Education and Preparing Pupils for Initiation into a Higher Life by Associating them with the National, Social & Cultural Environment”

PROFILE

As a mission to serve student community, Berar General Education Society started Berar Arts College in the year 1937. In 1938, the college was renamed as Sitabai Arts College after the donor name, Late Smt. Sitabai Jain. In the year 1958, commerce faculty was added to the college to cope with the rapid growth of this faculty.

It was felt necessary to make commerce faculty as an independent unit. A great philanthropist of Akola, Seth Radhakisan Toshniwal, in the fond memory of his wife Smt. Laxmibai donated a piece of land measuring about 3 acres with a handsome amount to establish a separate commerce college. The noble well wishes finally led to establishment of Smt. Laxmibai Radhakisan Toshniwal College of Commerce, as a separate unit in the year 1964. Since then it has been working as a separate institution of commerce education in western part of Vidarbha.

Initially the college imparted instruction up to undergraduate courses only. But to cater to the needs of the students community in the commerce faculty, postgraduate courses were added from the year 1972. From 1975-76, Government of Maharashtra adopted and implemented 10+2+3 pattern of education. So, Government granted permission to open XI and XII classes. Therefore, from this year, junior college attached to senior college.

To meet the needs of training the students of this region, in the field of business management, marketing and industrial relations, three postgraduate courses were added, i.e. Diploma in Business Management (D.B.M.) Diploma in Marketing Management (D.M.M.) and Master of Industrial relation and Personal Management (M.I.R.P.M.). The range of the professional courses is widening with the introduction of Diploma in Taxation (D. Tax.) and Diploma in Financial Management (D.F.M.) in the year 2006.

To encourage research in the faculty of Commerce M.Phil. Course was also introduced in the year 1983. In the same year C.lib. a job oriented certificate course in Library Science was introduced which has been assuring opportunities for the employment of the students. The college is running District Study Centre of Yashwantrao Chavan Maharashtra Open University, Nashik (YCMOU) since 1990. Under its jurisdiction the Open

University course such as Preparatory, B.A., B.Com., B.Lib. Sc., M.Lib. Sc., D.J., B.J., MBA, M.Com. are available for needy students.

At the outset of new millennium, computer science courses were acknowledged and finally established in the Department of Computer Management and Cyber Commerce in the year 2000. The Department is conducting the postgraduate Courses in Computer Management – viz. M. COM. (COMPUTER MANAGEMENT)

Three career oriented course have been started from the academic session 2006-07. These are E-commerce, Event Management & Tourism Management. For the smooth conduct of these courses a separate department of Career Oriented UGC Programme is established. From the academic year 2009-10, a new job oriented course in Web-Designing & Office Automation has been introduced. College has its own certificate courses for admission in these courses students may contact course coordinator.

Thus, it is obvious that the college covers a wide range of programme options for the benefit and development of the students of commerce faculty. The result of rendering the knowledge and welfare facilities, transformed the college into the largest single faculty Commerce College with academic as well as professional commerce education, having a largest number of students. It has been an ideal Centre for conducting Ph.D. work of research scholars. The accomplishment graph of the college since its inception has been rising continuously higher every year by producing meritorious students in the jurisdiction of S. G. B. Amravati University, Amravati.

The alumnae of the college hold prestigious positions in politics, public administration, educational institution, judiciary, banking and insurance and many other sectors. They are poets, writers, journalists, traders, business executives, chartered accountants, tax and legal practitioners. Businessmen & industrialists, share & stock brokers, astrologers and palmists, state and national players, are working in the diverse fields in India and abroad with the living memory and message of the college.

GOALS & OBJECTIVES OF THE INSTITUTION

- a) To improve the quality of commerce education through sustained efforts towards attaining in excellence.

1) About Us:

Smt. Laxmibai Radhakisan Toshniwal College of Commerce came into being as a separate unit in the year 1964. Since then, it has been working as a premier institution of Commerce education in the Western Part of Vidharbha. It is a single faculty college of commerce and management. The college is providing education from UG to PG through English, Marathi and Hindi medium. The college has completed 4th cycle of NAAC. Awarded 'B++' grade in 4th cycle and 'A' grade in second and third cycles of assessment. UGC has awarded CPE status to the college. Affiliating University (Sant Gadge Baba Amravati University) has awarded lead college status to our institution.

We have our own publication 'SPARK' an International Journal of Social Sciences and Humanities. It is a Peer Reviewed, Refereed Multidisciplinary Journal. We have Annual Publication 'VISHWADHAN' which is providing opportunity to students for publishing and exploring their innovative ideas, thoughts and articles. We have self-funded courses for fund generation like M.Com. (Computer Management), M.Com. (HRD), M.Phil., DBM, DMM, D.Tax., DFM, Ph.D. and granted courses B.Com. and M.Com. Major Research Projects (MRPs) has been awarded by UGC to our two faculty members.

- **Teaching and Learning process:**

Student centric teaching methods are adopted for effective communication of the subject knowledge to the students. Students are taught with the mission to integrate with the Indian educational service group by propagating value based education and preparing pupils for initiation into higher life by associating them with natural, social and cultural environment. This presents new opportunities for academics in strengthening the courses for overall development of the students. The following are the highlights of student centric methods adopted:

- 1) **Experimental Learning:** This gives an opportunity to the teachers as well as students to involve directly in teaching learning process. The institution provides facilities and encourage students for individual involvement in practical's or project work, group work, role play, field visit, quiz competitions, poster presentations, debates and Organization of educational trips and surveys. Teachers promote effective class room interaction between students for developing skills to express themselves with their peers.
- 2) **Participatory learning:** In this the students are promoted to involve in activities viz., tours and excursions, group discussions, industrial visits, conferences, seminars, case studies, community surveys, street plays based on socio-economic issues, essay competitions, Elocution competition, participation in various skill development camps like AVISHKAR (an Intra University Research Convention) for innovative research presentations based on current issues. To increase participative learning, students are given assignments of every subject which help them get information on various questions to be prepared for the university examination. The college organizes Youth festival and sports day every year to promote cultural skills and to ensure physical fitness. The college is providing advanced technological teaching learning environment which compels willingly participation.
- 3) **Problem solving methodologies:** To develop ability of problem solving along with the classroom teaching students' involvement in the projects stimulate their creative and analytical thinking and to come up with alternate solutions. Moreover class tests, tutorials, unit tests, quizzes held from time to time to motivate competitive spirit among the students. The activities like mind mapping, brain storming session, etc. helps them to widen their thinking capabilities under extreme time constrain. Whatsapp groups are created by the subject teachers to promote free talks on course contents. The use of advanced technological tools like Google Classroom, Google Meet, Zoom Meet in teaching learning process itself motivating students to solve their problems through direct participation and in a creative way. Online lecture series on YouTube by the subject teachers provides ease of access learning environment.

- 4) To combine *experiential learning, participative learning and problem solving methodologies for the ultimate objective of enhancing learning experiences*, the students are encouraged and trained to conduct Group Findings and Cooperative Solution (GFCS) Methodology. It is a pilot activity undertaken by the teachers to develop self reliant attitude and tendency of cooperation among students. In this, students are divided into groups and assigned different task/problem. They are asked to solve these problems themselves and share their findings through a group discussion. This tool also helped students in developing leadership qualities and problem solving ability.
